PLEASE PRINT COMMENTS BELOW

1. What are the major strengths and weaknesses of the instructor?

His lectures are exceptional. His lectures extremely useful.

2. What aspects of this course were most beneficial to you?

The difficulty of the homework made me up grade my code-writing skills several notches

3. What do you suggest to improve this course?

There should be a chat room in the website that allows students to work through the problems. This was used in several other courses I took here as far as I know successfully

4. Comment on the grading procedures and exams.

Grading takes too long, I thought grading was too harsh (on other students - I never got hurt). I do not like submitting homework by email because I know it malfunctions far too often.

OTHER COMMENTS:

And I never had a feeling that the instructor would understand.

Dr Riely is clearly brilliant and one of the best lecturers that I have ever seen. He is, however, distant. There is nothing in place to allow students to interact regarding the homework, which would really help.
